

MAKER SPACE

The Maker Space, *where inspiration meets innovation*, provides public access to tools and training in a creative and fun environment where like-minded individuals gather to share ideas, create and promote community and small business endeavors. Some of the tools included are: 3D printers, laser cutter and engraver, cameo vinyl plotter, t-shirt press, metal lathe, and CNC milling machine.

The WVUP Maker Space membership is \$15/month and covers your guided training on all of our technologies and on-site support for your projects.

What Could You Do in a Maker Space?

- Make a custom t-shirt
- Draft a product prototype
- Build a ukulele
- Design a phone charging station
- Create kitchen utensils
- Make custom jewelry
- Plus much more - your imagination is the limit
